Serial No. 10/067,418

Art Unit 1771

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 22 and 23 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More particularly, in claims 22 and 23, second line of each, after "and" insert --having-- and in line 4 of each claim after "which" insert --said--. In claim 22, line 6, after "one" it is suggested to insert --operator's--, in claim 23, line 6, after "spread" insert --apart--.
- 3. Claims 8-18 and 23 are rejected under 35 U.S.C. §

  103(a) as being unpatentable over GB -425, substantially for the reasons set forth in paragraph No. 5 of Paper No. 12, together with the following additional observations. With respect to claim 8 and its dependent claims 9-18, the insertion that the cellular material which has a groove "having a rounded bottom" the Examiner notes that the reference, which is taken from substantially the identical art as that of the invention, teaches that "sponge or like materials", i.e. compressible foams, (e.g. page 2 line 8, page 5 line 4) may also exhibit (page 2, lines 18-19) a "V-shaped or like notch or recess" which is believed to put the newly amended claim structure at the least well within the ordinary skill of the art. As such, the Examiner believes that to give the groove a rounded bottom is a mere optimization

Serial No. 10/067,418

Art Unit 1771

in the absence of unexpected results not heretofore shown on the record, despite applicant's arguments (page 10, first paragraph) to the contrary. With respect to newly presented claim 23 the Examiner notes that the structure in the last two lines relating to the characteristics of the "at least two flanges" is believed to be clearly inherent for any such material made of a compressible foam.

- 4. Claim 22 is not rejected on the basis of adverse prior art. The claim is believed to possess the structural limitation which makes the invention non-obvious over the GB -425 reference; (note also applicant's comments, Response, page 10, second complete paragraph). The Examiner suggests that a new set of dependent claims exhibiting the structures set forth in claims 9-18 (and also the rounded feature of claim 8) be made to depend on claim 22, with the remaining rejected claims being cancelled, so the case could be passed to allowance.
- 5. Applicant's amendment necessitated the new grounds of rejection. Accordingly, THIS ACTION IS MADE FINAL. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

Serial No. 10/067,418

Art Unit 1771

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Zirker whose telephone number is (571) 272-1486. The examiner can normally be reached on Monday-Thursday from 8:30 A.M. to 6:00 P.M. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris, can be reached on (571) 272-1478. The fax phone number for this Group is (703) 872-9306.
